

## APRÍLOVÉ POČASÍ

Všimli jste si, jak se v dubnu počasí mění, chvíli svítí sluníčko, chvíli prší. Obloha je modrá a za chvíli šedivá. Někdy fouká vítr a někdy, můžete na obloze vidět duhu.

**Pojďte si počasí zkusit nakreslit.**

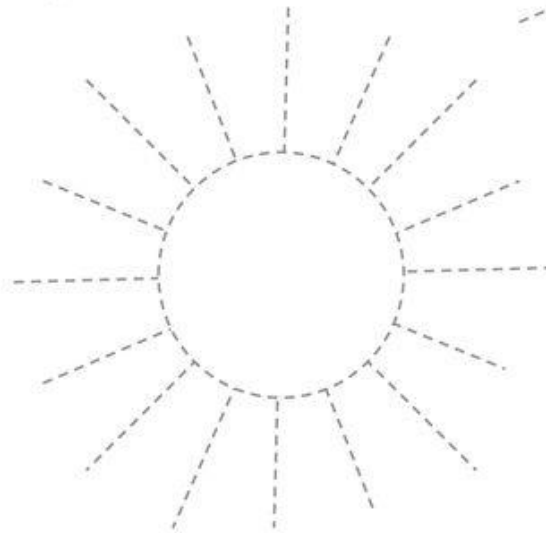

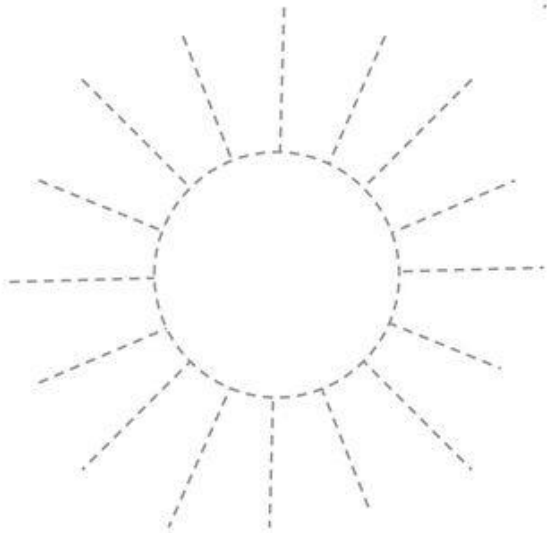

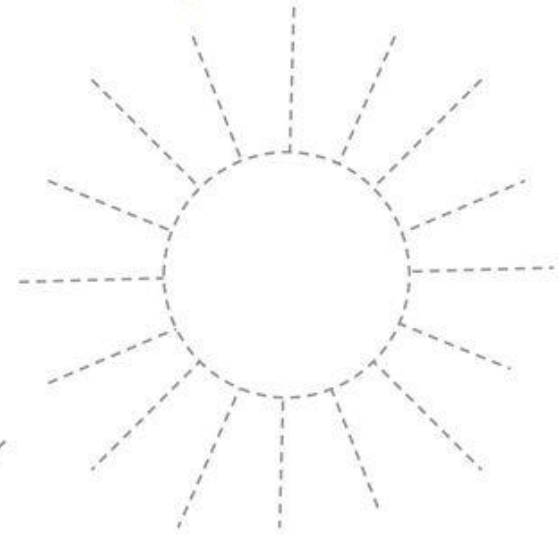

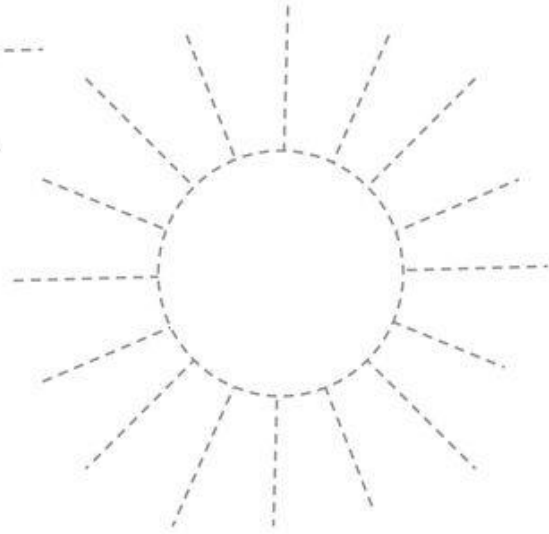

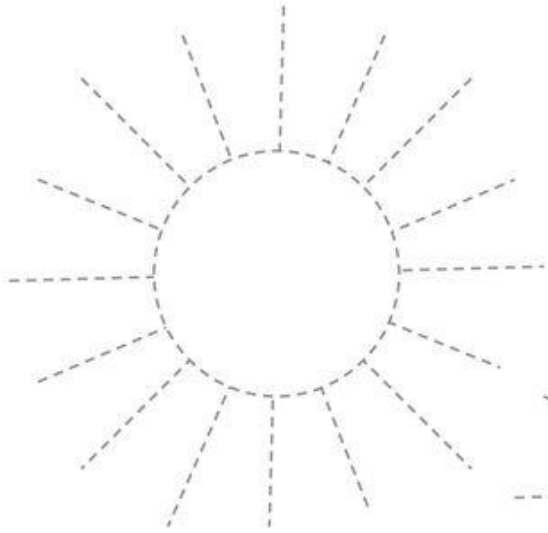

Než začneme s kreslením, povíme si nějaké básničky a do rytmu si zaťukáme. Stačí dvě dřevěné vařečky:

Deš-ťo-vé ka-pič-ky, dos-ta-ly no-žič-ky. Bě-ha-ly po-ple-chu, dě-la-ly ne-ple-chu.

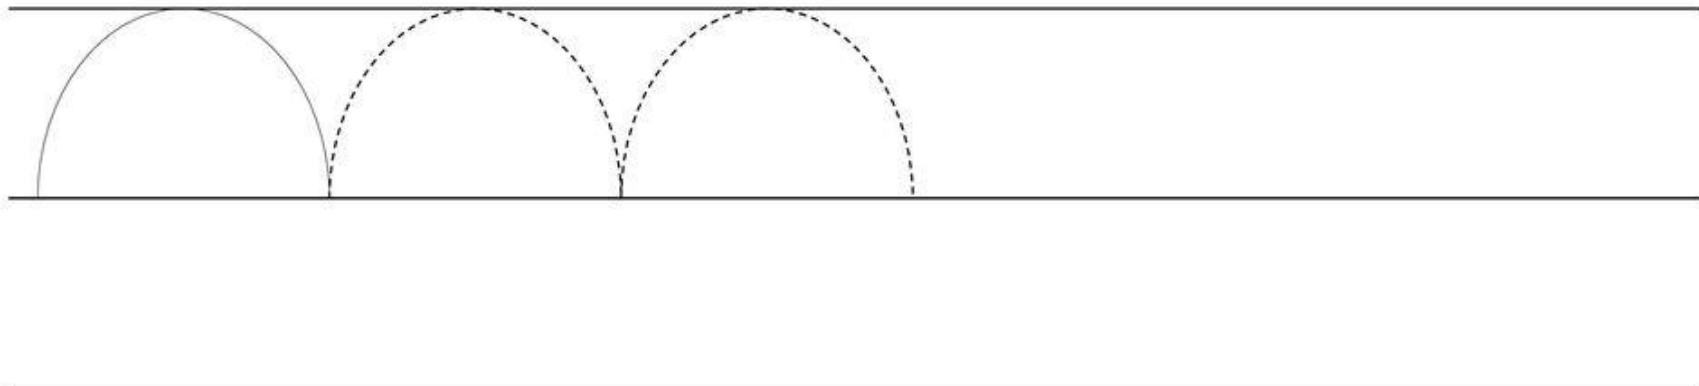

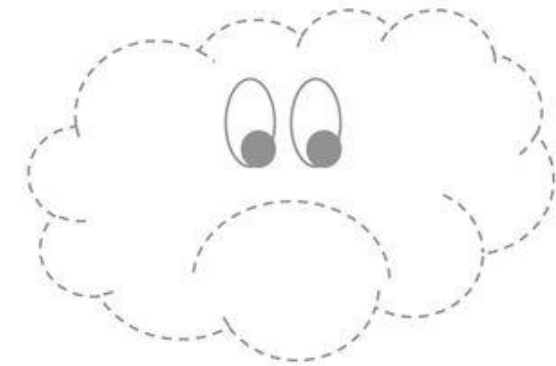

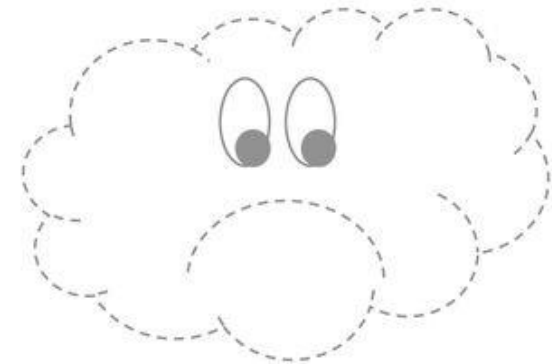

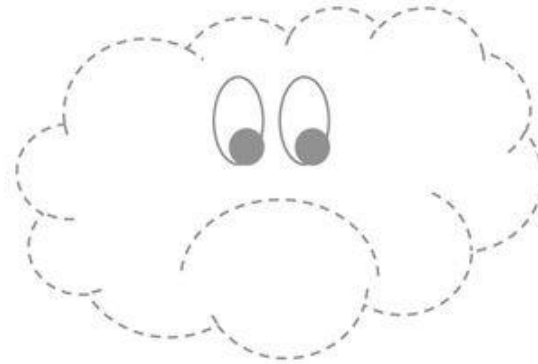

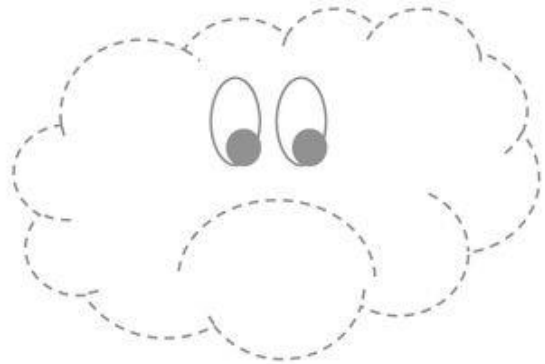

Slu-níč-ko se pro-bu-di-lo, na ob-lo-hu vys-ko-či-lo, u-my-lo se v ran-ní ro-se, za-mr-ka-lo, pro-táh-lo se.

Já slu-níč-ko ča-ru-ji, pěk-nou du-hu ma-lu-ji, pa-prs-ky jsou štět-cem mým, du-hu s ni-mi vy-kou-zlím.
